Dear Mr. Taylor:

Re: Replacement Reclamation Surety & Permit Transfer, Ash Grove Cement West, Inc./Southwestern Cement Enterprises, Inc., Leamington Cement Plant & Quarry, M/023/004, Juab County, Utah

This letter forwards to you the appropriate replacement bonding and permit transfer documents recently received from Ash Grove Cement West, Inc. (AGCW), for the Leamington Cement Plant & Quarry. On March 22, 1990, the Board of Oil, Gas and Mining approved of the permit transfer and the amount and form of replacement surety as provided by AGCW for this mine site.

Enclosed are two (2) complete (original) copies of the permit transfer and replacement surety documentation. One original is for your file records, the other should be appropriately processed by your office and returned to Mr. Oliver Gushee, legal counsel, for AGCW. We ask that you sign and return a copy of the cover sheet, Form MR-JASA, Joint Agency Reclamation Surety Agreement, to this office at your earliest convenience. We will then attach it to our file copy of the recently approved Forest Service surety bond form for this mining operation.

This letter will also serve as our formal notice of approval to release the existing \$386,000 reclamation surety posted by Southwestern Cement Enterprises, Inc., for the Leamington site. Ash Grove Cement West has satisfied the Division's requirements for permit transfer and replacement surety. No further information is required of AGCW in this regard.
